ABOUT THE BOAT

Is the largest single sprint kayak in our fleet.

We were testing it with coaches and proved to be the best kayak for the children aged 9-12 years.

MAXI C1

This is the new model reinvented from the 3 prototypes that we made in recent years.

First time we made it in 2016/2017. The final concept of the boat was created in 2019 after many years of working with young canoers and coaches.

It's made on the base of verified bottom of K1 MAXI.

Thanks to a specially designed hull it's very easy to keep it straight, also it turns easily and it's very stable. With that boat your children will learn basics of balance and canoeing technics in few days.

You won't find better boat for technical training.

Thanks to effective practice it will save time and money for the sports clubs.

Like all our boats it could be customized with different colors and equipment.

Length: 420cm

Width: 38cm

Age: 9/12 years

Max Weight: 50kg
